Company Overview

Founded in 1957, Perry Brothers Oil Company, Inc. is an established, family-owned provider of integrated fuel logistics, wholesale petroleum distribution, industrial lubricants, and comprehensive fleet maintenance. Operating out of Southwest Georgia with an active fleet of commercial delivery vehicles, we specialize in supplying dependable highway and off-highway fuels, high-capacity Diesel Exhaust Fluid (DEF) hauling, and complete commercial tire and fleet services to maintain the continuity of government and industrial operations.

Core Competencies

- **Wholesale Fuel & Petroleum Delivery:** High-volume distribution of Ultra-Low Sulfur Diesel (ULSD), highway/off-highway dyed fuels, and major brand gasoline.
- **Industrial & Automotive Lubricants:** Premium distributor of Chevron First Source lubricants, specialty motor oils, hydraulic fluids, and cotton greases.
- **DEF & Fluid Logistics:** Specialized fluid distribution featuring over 30,000 gallons of Diesel Exhaust Fluid (DEF) in-stock for immediate commercial hauling.
- **Fleet Management & Fleet Cards:** Turnkey data tracking, advanced spending controls (mileage, usage, restrictions), and secure, real-time fleet card budgeting through Gas N Go.
- **Commercial Vehicle & Tire Services:** Full-service tire infrastructure from tractors to light trucks, alongside precision wheel alignments, brake repairs, and hydraulic hose replacement.

Differentiators

- **69 Years of Proven Reliability:** Serving regional networks for generations with highly established terminal agreements ensuring steady supply during fuel volatility.
- **Comprehensive In-House Capabilities:** A single-source vendor offering both hazardous fluid delivery alongside robust vehicle mechanical support and heavy-duty hydraulic tracking.
- **Advanced Fleet Data Infrastructure:** Proprietary online portals and tracking cards built to simplify auditing, data analytics, and usage control requirements for government managers.
